Nature and Health | Annual Review of Public Health Urbanization, resource exploitation, and lifestyle changes have diminished possibilities for human contact with nature in many societies. Concern about the loss has helped motivate research on the health benefits of contact with nature. Reviewing that research here, we focus on nature as represented by aspects of the physical environment relevant to planning, design, and policy measures that ... More than Words: Promoting Health Literacy in Older Adults Carolyn I. Speros, DNSc, APRN, ANP/FNP-BC. Abstract. Inadequate health literacy disproportionately affects older adults in the United States. The complexities associated with managing chronic disease and the cognitive and sensory changes associated with aging compound the challenges of teaching this highly vulnerable group.
