Research - Wikipedia Research comprises "creative and systematic work undertaken to increase the stock of knowledge, including knowledge of humans, culture and society, and the use of this stock of knowledge to devise new applications." It is used to establish or confirm facts, reaffirm the results of previous work, solve new or existing problems, support theorems, or develop new theories. Thesis and dissertation writing: an examination of ... 1.. Introduction Nearly all of the literature on thesis and dissertation writing consists of handbooks and guides with, apart from a few notable exceptions, very little analysis having been carried out of actual texts (Mauch & Birch, 1998). Atkinson (1997) suggests a number of reasons why this might be the case. The first of these is the accessibility of the texts.
